

Actions and Campaigns for Jena

Business and science need publicity. That is the reason why JenaWirtschaft supports a number of actions and campaigns that help to publicise the innovative achievements of Jena. Among those is the **IQ Innovation Prize of Central Germany**.

A top-class jury of science and business awards prizes for **innovative ideas regarding products, processes and services**. Furthermore, the city Jena awards a **local prize**.

In 2009, the jurors were won over by Jena companies:
